

HELLO!

We have had an interesting and positive few months, all things considered, and thought an upbeat update might help to provide an injection of dopamine and activate the medial prefrontal cortex...

Working with our clients we have helped them to...

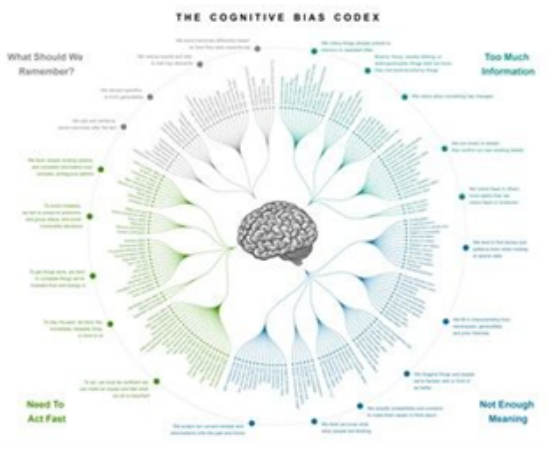

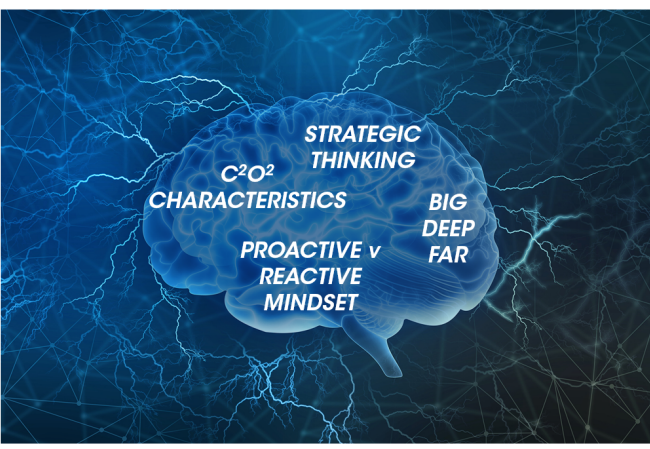

ENHANCE A LEADERSHIP TEAM'S STRATEGIC THINKING CAPABILITY

PROMOTE A CULTURE OF INNOVATION

ACCELERATE A PATIENT-CENTRIC CULTURE CHANGE

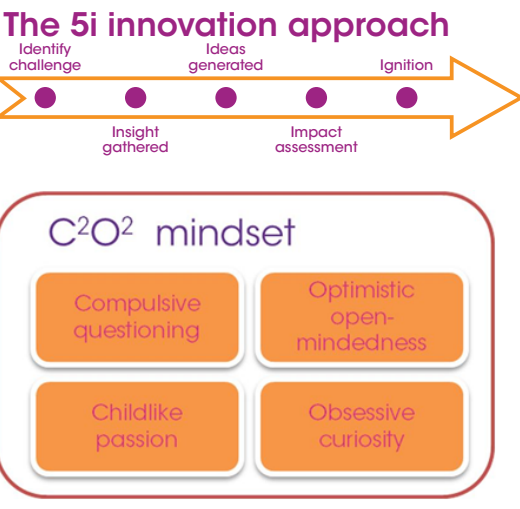

STRATEGIC THINKING WORKSHOP

A day-long virtual workshop where we encouraged Big, Deep and Far thinking. A re-design is underway for time-poor senior management.

PROMOTING A CULTURE OF INNOVATION

Hosted across two weeks and drawing on intriguing pre-event engagement, participants explored our unique C2O2 Mindset and 5i Innovation models. All delivered virtually via experiential learning and exercises based in Google Jamboards to encourage collaboration.

ACCELERATING A PATIENT-CENTRIC CULTURE

A leadership alignment workshop was followed by an interactive virtual roadshow that united the business around a common set of behaviours - to enable them to become thought leaders whilst gaining a competitive edge.

“What do you believe truly drives culture in an organisation?”

Belief in the message by everyone
 Good leadership
 Servant leadership
 Management
 Values
 Shared beliefs
 Diversity
 Leadership
 Purpose
 Belief
 Strong leadership
 People
 Engagement
 Something you can relate to
 the environment

Oh, nearly forgot to say we had a cracking night out at the C&T Awards 2021, where our global 'Knock-Their-Socks-Off' event was **'Highly Commended'**.
